

LARS OPTIONS FOR EXPLORER

The ISE EXPLORER Autonomous Underwater Vehicle (AUV) can be supplied with a wide variety of Launch and Recovery Systems (LARS) to meet your operational requirements. ISE LARS allow you to recover your vehicle in the environment of your choice.

RAMP / STINGER

- Vessels up to 3 m freeboard
- Simple operation
- Fully Containerized Operation
- HPU or Vessel Hydraulics

DOCKING HEAD / CRANE

- Vessels of any freeboard height
- Recover directly to cradle on rails for easy maintenance
- Installable on existing or new cranes

TRAILER/BOAT RAMP

- Boat ramp launch
- Low cost and minimal infrastructure
- Simple and safe Recovery
